## WOMEN'S HEALTH CARE & GYNECOLOGY

### The hCG Diet

#### *Is it right for you?*

*Some things to think about:*

	Have you been working hard to lose weight? Are you frustrated and ready to give up because you still don't see the evidence of your hard work?
	Do you eat well, exercise and wonder why you can't lose weight?
	Do you finally want to get control of your weight, but need to see quick results in order to stay motivated?
	Have you reached a plateau in your weight loss efforts that you can't seem to break thru?
	Do you have a few extra pounds that you would be happier without - particularly in your belly area?
	Are you grossly overweight and wonder if there is anything that can help you?
	Do you hate exercise?
	Do you want to lose a pound a day and then KEEP IT OFF?

If the answer is YES to any one or more of the above questions, then **The hCG Diet Program** may be right for you. Whether it is a little or a lot of weight you need to lose, the majority of people upon completion of the diet frequently say: *"I can't believe how easy it was!"*

Tens of thousands of people have used this simple, inexpensive, safe treatment and have achieved miraculous fast and permanent weight loss.

**The only thing you have to lose is a pound a day!**
